Building Business Bridges

A powerful platform linking Czech and British business communities

ABOUT THE CBCC

Established in 2008 with the vision to deliver value to members, companies and individuals seeking support and advice, the CBCC was originally formed with the support of the Embassy of the Czech Republic in the United Kingdom.

Today, we are a growing organisation which is proud to facilitate better economic relations between the Czech Republic and the UK by organising and supporting discussions and briefings on issues affecting trade and investment.
